MON NOV 13

To epeters@norridge80.net

You failed to provide the records I originally requested I am requesting a roster of all employees that Shell include full names, titles, salaries, office phone, office email and XLS format..

You only sent first name last name and salary which is not what I asked for furthermore I am now requesting the personnel file of the freedom of information Officer who was assigned to this request

Please remember accountability and transparency should be your greatest work doing while working as a servant for the people.
