**RE: Annual AHERA Notification**

Dear Parents/Guardians & Staff,

In accordance with the regulations established by the Illinois Department of Public Health, Norridge School District 80 is committed to maintaining a safe and healthy work and learning environment.

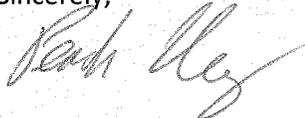

The District ensures that ongoing building surveys are performed to identify and safely manage previously installed asbestos containing products. Furthermore, all renovation of our building must be reviewed in advance by our Designated Person to ensure that asbestos containing materials will not be disturbed without proper safeguards. Work that requires removal or repair of asbestos containing material is restricted to trained and qualified persons only.

The District is committed to a policy of safety and effectively managing asbestos on campus. Our Asbestos Management Plan is located in the school's office. It is available for your review.

This letter provides notification to parents, guardians and staff of the presence of asbestos containing materials in the building.

Contact Peadar Hurley at (708) 583-2068 for more information about asbestos-containing materials in our building.

Sincerely,

Mr. Peadar Hurley  
Director of Buildings and Grounds
